Public First Poll for Energy UK

Fieldwork: 15th Sep - 19th Sep 2023
Interview method: Online Survey
Population represented: UK Adults
Sample size: 2003

Methodology:

All results are weighted using Iterative Proportional Fitting, or 'Raking'. The results are weighted by interlocking age & gender, region and social grade to Nationally Representative Proportions

Public First is a member of the BPC and abides by its rules. For more information please contact the Public First Polling Team (polling@publicfirst.co.uk)

List of Tables

1 Who do you think has the greatest responsibility in ensuring our country reduces its carbon emissions? Select up to three . . . 2
2 Before taking this poll, had you heard of the phrase Net Zero ? . . . 6
3 How confident are you that you could explain what the following terms mean to a stranger?: Net zero . . . 10
4 How confident are you that you could explain what the following terms mean to a stranger?: Carbon neutral . . . 14
5 How confident are you that you could explain what the following terms mean to a stranger?: Renewable energy . . . 18
6 How confident are you that you could explain what the following terms mean to a stranger?: Carbon emissions . . . 22
7 To what extent do you support or oppose the UK Government s Net Zero target? . . . 26
8 Which of the following is closest to your view? . . . 30
9 Which of the following comes closest to your view? . . . 34
10 Carbon emissions are made from burning fossil fuels, and cause climate change. How much progress, if any, do you think the UK as a whole has made in reducing the amount of carbon emissions it creates in the last decade? . . . 38
11 And if you had to guess, do you think that enough is being invested in the UK to meet our net zero targets? . . . 42
12 And if you had to guess, which group do you think is currently investing more to meet the UK s net zero target? . . . 46
13 If you had to guess, where do you think the UK stands in terms of how much renewable energy it produces compared to other developed countries (eg, France, Norway and the US) . . . 50
14 Imagine a political party announced the following in its manifesto ahead of the next General Election. To what extent would you support or oppose the policy?: We will stand by our existing net zero targets and other commitments to reduce carbon emissions from energy, transport and heating . . . 54

(1.A) Who do you think has the greatest responsibility in ensuring our country reduces its carbon emissions? Select up to three
